ADAM KRUSCHWITZ

Objective Statement

I am a full stack web developer with previous experience as a SaaS support engineer looking for remote web development work. I am pursuing a certificate of completion from the UC Berkley full stack development coding bootcamp with a current academic average of A+.

Skill Highlights

- Expert in HTML, CSS, and JS
- Expert in SQL
- Eye for sleek, modern UI
- Proficient with React
- Proficient with Node.js
- Excellent communication skills

Experience

Support Engineer - 09/2019 to 09/2021

ZL Technologies Milpitas, California

- Worked with fortune 500 clients to triage and troubleshoot issues with ZL's records management platform.
- Built and maintained SQL queries for high volume, high security production environments.

Computer Technician - 09/2017 to 09/2019

FixIT Shop Ithaca, New York

- Worked with customers to identify computer hardware and software problems.
- Diligently documented troubleshooting steps taken to allow for a seamless transition of tickets between shifts.
- Provided cheerful and informative customer service with a focus on teaching users the basics of computer troubleshooting.
